## Organization Statement

At The Learning Experience, we make early education joyful, engaging and fun so children are happy to **learn, play and grow**.

Our curriculum focuses on the six ages and stages of early childhood development and engages children in hands-on learning activities that encourage them to explore and solve problems at their own rate of development. This forms a foundation for kids to **Learn, Play and Grow** under the care of our nurturing teachers and staff.

Our mission is to make a positive difference in the lives of a child, their families, and the communities we serve. We achieve this mission through three core values: an Innovative Mindset, a Collaborative Spirit, and Community Impact.
